SUPPLEMENTARY INFORMATION:

Title: FERC-515 (Declaration of Intention).

OMB Control No.: 1902-0079.

Type of Request: Three-year extension of the FERC-515 information collection requirements with no changes to the current reporting requirements.

Abstract:

The purpose of FERC-515 is to implement the information collections pursuant to section 24 of the Federal Power Act (FPA). This statute authorizes the Commission to make a determination as to whether it has jurisdiction over a proposed water project pursuant to section 23(b) of the FPA. Entities intending to construct project works on certain waters must file a declaration of their intention with the Commission. The information provided in the Declaration of Intention includes a written application, containing sufficient details to allow the Commission staff to research the jurisdictional aspects of the project.

Commission staff will review maps land ownership records, and other related information to establish whether or not there is Federal jurisdiction over the lands and waters affected by the project. A finding of non-jurisdictional by the Commission eliminates a substantial paperwork burden for the applicant who might otherwise have to file for a license or exemption application.

Type of Respondents: Persons intending to construct project works on certain waters.

*Estimate of Annual Burden.*¹ The Commission estimates the annual public reporting burden and cost² for the information collection as:

FERC-515: Declaration of Intention					
Number of Respondents (1)	Annual Number of Responses per Respondent (2)	Total Number of Responses (1)*(2)=(3)	Average Burden Hours & Cost (\$) Per Response (4)	Total Annual Burden Hours & Total Annual Cost (\$) (3)*(4)=(5)	Cost per Respondent (\$) (5)÷(1)
6	1	6	80 hrs.; \$7,280	480 hrs.; \$43,680	\$7,280

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and

¹ Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a federal agency. See 5 CFR 1320 for additional information on the definition of information collection burden.

² Commission staff considers resources completing the FERC-515 to be compensated at rates similar to FERC employees. Therefore, we are using the 2022 FERC average hourly cost (for wages and benefits for one full-time employee) of \$91.00/hour (or \$188,922/year).

clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Dated: August 30, 2022.

Kimberly D. Bose,
Secretary.
